

Nomination Form

Introduction

ARK – Accessible Renovations for Kids is a local non-profit that provides home renovations to families that have children with mobility challenges. Many children suffer from a variety of illnesses or injuries that affect their mobility and which makes daily life challenging for them and their families. The high cost of renovations or even smaller modifications to a home are quite often out of reach for a family and this is where ARK can help.

Totally reliant on volunteers and the support of donors and sponsors, ARK is dedicated to easing the daily life of children with disabilities and reshaping their world.

Nomination Form

Recipients of an ARK renovation are selected based on information provided by nominees such as parents, friends, doctors, and other support workers. By filling out the form below, you can let us know about a child you care about that needs some help at home to ease their daily life.

We read and consider each nomination carefully. However, in hopes of providing the most impact to our recipients there are a few basic requirements to be eligible for consideration:

An ARK Child must...

- Be 25 years old or younger
- Be in need of renovations that will improve their accessibility at home
- Require financial assistance to complete renovation
- Live in a home owned by custodial parents or other guardians

While we would love to reshape the world of all children with mobility challenges, our resources are limited so we endeavour to select ARK Children that will benefit the most from our support. With continued support of our volunteers and donors, we hope to increase the number of ARK Children each year. Please consider contributing in any way you can.

The attached nomination form may be done online at www.arksociety.ca or completed and submitted to nominations@arksociety.ca. All information provided is kept within the strictest confidence and remains within the ARK organization. For further details, please view our privacy policy at www.arksociety.ca
